

# THE SOURCE OF LIVING

Water is used for drinking and cooking all over the world. We use running water in the kitchen around 100 times every day! We take it so much for granted that we often don't think of water when we hear the word kitchen. We forget what has to work hardest in the kitchen: the kitchen tap. An appliance that is used this frequently must naturally be durable and function perfectly every day. In addition, since kitchens are increasingly becoming living spaces, it also has to look great. That is why ergonomics, functionality, aesthetics and finishes are so important in GROHE kitchen taps. In short this is why we refer to GROHE in the kitchen as The Source of Living.

#### **GROHE KITCHEN**

### THE SOURCE OF ENJOYMENT

GROHE delivers top-quality drinking water directly from the tap – from refreshingly cold to kettle hot. For filtered, chilled and carbonated water, choose GROHE Blue® Chilled & Sparkling. If you like it hot, install our GROHE Red® kettle hot water taps. They look great, offer amazing convenience, and GROHE Blue® cuts out the need to buy bottled water, making a valuable contribution to the environment. GROHE helps you enjoy water any way you want.

#### THE SOURCE OF TECHNOLOGY

High-quality materials, outstanding design and innovative technologies ensure that your GROHE tap will last a lifetime. Our tap levers feature GROHE SilkMove® technology, making them extremely easy and precise to operate. Many different designs and spout heights give you huge scope when choosing your kitchen furniture and sink; whilst pre-window models and low-pressure variants ensure there is a model to meet all your installation requirements.

### THE SOURCE OF STYLE

Our full range of modern 'cosmopolitan', timeless 'contemporary', and simply 'authentic' style taps offers you exactly the right tap to match your needs and your taste. And you will want your kitchen tap to stay looking as good as the day it was installed. GROHE StarLight® chrome resists scratches and ensures a lifelong shiny finish, and if you like the look of stainless steel, you'll love our SuperSteel® finish.

### THE SOURCE OF CONVENIENCE

Many of our models are available with pull-out mousseurs and sprays, a convenient and time-saving feature, either for rinsing salads, vegetables or for washing greasy pans. You will be amazed at the adaptability and flexibility of our range of professional sprays – to help make your life in the kitchen as easy as possible.

### **MASTERS OF TECHNOLOGY**

### **SINCE 1873\***

For over 140 years GROHE's people have been regarded by their peers in the industry as MASTERS OF TECHNOLOGY, because of their innovations, outstanding design and award-winning fittings. By a combination of their advanced craftsmanship and their cutting-edge approach to effective teamwork and processes, GROHE's Masters of Technology take the lead in developing, designing and manufacturing their outstanding product range, all the while testing and fine-tuning each piece to ensure continued customer satisfaction. The result is timeless design, and quality that lasts a lifetime. Again and again GROHE products surprise users with unique features that provide "Pure Freude an Wasser". When you use a GROHE product you can feel the difference. Time after time.

Take, for example, GROHE Red® that delivers instantly 99°C hot water and the spout remains cool – and safe – at all times with GROHE CoolTouch® technology.

Another kitchen highlight is the GROHE Blue® water system for freshly filtered and chilled table water straight from the tap and with different degrees of carbonation. Say goodbye to the hassle and inconvenience of bottled water, while the excellent taste of GROHE Blue® water promotes health and increases performance.

GROHE kitchen taps feature exciting functions according to your daily needs and the design of the tap fits perfectly into your kitchen. Water is the source of living, fresh free-flowing and essential – sourced from our GROHE kitchen taps, it brings joy and pleasure to the everyday.

## GROHE WATER SYSTEMS

# THE SOURCE OF ENJOYMENT

Water is the source of life, fresh, free-flowing and essential. Our range of water systems offers a tailored drinking experience of purity and convenience that will turn water into a source of health and enjoyment in your home.

Kettle-hot or filtered, chilled still or sparkling, our water systems deliver ready-to-use water conveniently from your kitchen tap.

GROHE BLUE® GROHE RED®

#### GROHE KITCHEN

### GROHE BLUE®

Imagine drinking water fresh from a mountain spring – life-affirming, thirst-quenching, and absolutely pure. Now imagine the same health-giving, untainted water flowing directly from your own kitchen tap. The GROHE Blue® water system makes this a reality in your own home. It transforms ordinary tap water and filters it, leaving a taste as fresh and pure as nature intended.

Whatever your idea of perfect water refreshment – filtered, chilled, sparkling or all three – GROHE Blue® brings it to you straight from the tap.

#### **TASTE**

GROHE's filters remove impurities to give water a pure, fresh taste that even beats bottled water

#### **HEALTH & WELLNESS**

removing even small particles but leaving behind precious minerals, GROHE Blue® makes it easy to embrace the health-giving properties of water

#### **CONVENIENCE**

no more carrying heavy bottled water home

#### SUSTAINABILITY

kinder to the environment, with less waste on packaging and processing compared to bottled water

## GROHE BLUE®

### PURITY YOU CAN TASTE

It all comes down to taste. A representative survey which asked consumers to taste GROHE Blue® water alongside three leading still mineral waters found that GROHE Blue® water tastes better! 73% of consumers assessed the taste of GROHE Blue® water as "fresh", while only 63% of those surveyed found the mineral waters to have a "fresh" taste.

GROHE Blue® water doesn't just taste great by itself: it also gives coffee and tea a much more refined and intensive taste.

Clear taste test winner over 3 leading mineral waters GROHE Blue® tastes fresher!

HOSE 1 GROHE BLUE® FILTERED WATER

#### SEPARATED INNER WATER WAYS FOR 100 % PURITY AND TASTE

To ensure that GROHE Blue® water does not come into contact with unfiltered water or with metal parts after filtering, the high-quality fitting features two separate waterways – one for the ordinary mains water and one for the purified GROHE Blue® drinking water. This prevents from becoming tainted, preserving the great filtered taste.

# GROHE BLUE®

# **CONVENIENCE ON TAP**

Think for a moment about the energy and hassle it takes to keep a supply of bottled water on hand at home. You have to buy it from the supermarket, then lug it from the car to your house. Once there you have to find space to store it out of sight. And when you've finished it you have to return or recycle the plastic bottles, before starting the whole process again.

By installing a GROHE Blue® system in your kitchen you can say goodbye to the hassle and inconvenience of bottled water with no compromises on taste or health. Just turn the tap and enjoy an unrivalled refreshment experience. What could be easier than that?

## REDUCING WASTE, RESPECTING NATURE

#### Water needn't cost the earth

It takes an astonishing 7 litres of water to produce a single litre of bottled mineral water. Not to mention the energy used, CO2 emissions created and the 1.5 million tons of plastic packaging used by the industry each year.

At GROHE we are always working to secure the future of water, our most precious natural resource. This is the driving force behind the development of such products as GROHE Blue®, which help people manage their water and energy consumption with ease.

#### Sustainable solutions

GROHE Blue® offers a smart alternative which cuts the waste involved in processing bottled water and reduces CO2 emissions by an impressive 83%, according to a study by the University of Goettingen. GROHE Blue® also just needs the 1 litre you drink instead of 7 litres for bottled water, reducing waste by 85%. This makes the GROHE Blue® water system a sustainable alternative to bottled water.

## GROHE BLUE®

### **BWT FILTER TECHNOLOGY**

#### Technology that lets you taste the difference

For our GROHE Blue® system we have worked with BWT, Europe's leading filtered water professionals, to ensure that our system produces an unparalleled refreshing drinking experience.

GROHE Blue® filters use a five-step filtration process to remove even the smallest particles from tap water, while leaving behind all the important minerals that benefit your health.

GROHE Blue® systems also offer you a choice of filter size as well as three filter type options, meaning you can get perfect drinking water whether you live in a hard or soft water area.

### GROHE BLUE® FILTER – DRINKING WATER, REFINED

Our standard 600-Litre high-performance filter comes with every GROHE Blue® starter set, and replacement filters are available in three sizes – 600L, 1500L and 3000L. Every GROHE Blue® filter cartridge uses a five-step technology to remove all substances from tap water that impair its taste. Carbon filtration removes chlorine while a high-performance ion exchanger reduces limescale and heavy metals, leaving you with untainted, odour-free drinking water with a pure, fresh taste.

### GROHE BLUE® ACTIVATED CARBON FILTER – YOUR SOLUTION FOR SOFT WATER AREAS

Ideal for soft water areas, the activated carbon filter improves the taste by removing chlorine and metal substances but does not filter out carbonate hardness.

# GROHE BLUE® MAGNESIUM + FILTER – FOR GREAT TASTE AND HEALTH BENEFITS

Enjoy additional health benefits by choosing the Magnesium+ filter model. It uses our five-step filtration process and it also adds magnesium to the water. Something of a tea and coffee connoisseur? Then this is the option for you, with the added magnesium delivering the best-tasting tea and coffee possible.

### GROHE BLUE® CHILLED & SPARKLING

Do you like your chilled drinking water still or sparkling? Somewhere in between? With GROHE Blue® the choice is all yours. First the water is filtered to remove impurities. Then it is chilled to create that mountain-fresh taste. And when you turn on the tap a simple twist of the handle lets you choose whether still, medium sparkling or sparkling water flows into your glass.

Fresh water tailored to your exact taste, flowing straight from the tap – it's as easy as 1, 2, 3. While the right-hand lever on a GROHE Blue® tap mixes hot and cold water as normal, a handle on the left serves the chilled and filtered water and controls how sparkling your drinking water is, from perfectly still to bursting with bubbles.

An LED indicator in the lever changes colour to let you see your chosen carbonation level at a glance – still, medium sparkling or sparkling – as well as telling you when the filter capacity has fallen below 10% and will soon need to be changed. The water temperature can also be set to your personal taste, individually regulated to between 6 °C and 10 °C .

# GROHE BLUE® CHILLED & SPARKLING

As well as letting you select your ideal taste in drinking water, GROHE Blue® technology comes in a variety of design styles and options, making it a perfect fit, whatever your style of kitchen. Select one of four desirable tap styles – the classic GROHE Blue® with C- or U-shaped spout, the GROHE Blue® K7 or the GROHE Blue® Minta.

For those who don't wish to replace their current tap there's GROHE Blue® Mono. With a single pillar tap which sits alongside your existing tap, you can add chilled and sparkling water. It's pure and simple.

# GROHE BLUE® PURE

#### Pure water enjoyment

For people who prefer still water only, GROHE Blue® Pure is the ultimate solution. Better tasting than tap water, better for the environment than bottled water, and much more convenient for you, GROHE Blue® Pure offers drinking water of ultimate purity.

# GROHE BLUE® PURE

If pure, filtered, unchilled water is your preference then GROHE Blue® Pure is your solution. While the right-hand lever on GROHE Blue® Pure tap mixes hot and cold water as normal, a handle on the left serves the filtered water. Simply select your tap style from four options - a C- or U-shaped spout, the GROHE Blue® K7 with optional pull-out spray or the GROHE Blue® Minta, or add an elegant GROHE Blue® Mono pillar tap to sit alongside your existing tap – the choice is all yours.

### **GROHE RED®**

### STREAMLINE YOUR KITCHEN

Never wait for the kettle to boil again. With the innovative GROHE Red® system you can fill anything, from a mug to a large pot, with kettle-hot water in an instant – and all direct from your kitchen tap.

With GROHE Red® you still have your standard kitchen mixer, and a second lever provides kettle-hot water on tap.

### THE BENEFITS ARE CRYSTAL CLEAR

### **CLEAN, FRESH TASTE**

filtered water heated to 99 degrees for an exceptional taste experience

### **CLEAR YOUR WORKTOP**

no need for the clutter of a kettle. GROHE Red® fulfills all your water needs from a single tap

### **NO MORE WAITING**

kettle-hot water is always available at the turn of the lever, so waiting for the kettle or pot to boil is a thing of the past

### **LESS WASTE**

you only take the exact amount of hot water you need, so you save on water and energy consumption

### **GROHE RED®**

### A SINGLE, SIMPLE SOLUTION

### TASTE THE DIFFERENCE

Use GROHE Red® in combination with a GROHE Blue® filter and get fresh just-filtered water served kettle-hot. Enjoy your tea and coffee with a great clean taste. The boiler where the water is heated is made of titanium, which does not impart any metallic taste to the water. It is also highly resistant to corrosion and limescale build-up, meaning a consistently great taste over the lifetime of the tap.

### **DECLUTTER YOUR KITCHEN**

What busy kitchen doesn't need more worktop space? With GROHE Red® you can clear the clutter of your kettle from the worktop and get both hot and cold mixed water plus kettle-hot water, all from the same tap. The system's compact boiler is designed to fit discreetly below the sink, leaving you more counter space and a cleaner, clearer-looking kitchen.

### **SAVE PRECIOUS TIME**

Never wait for a pot of kettle hot water or a much-needed cup of tea again. We all lead busy lives, and time spent waiting for water to boil all adds to the time spent on chores rather than relaxing. Whether it's cooking pasta, blanching vegetables or preparing a baby's bottle, GROHE Red® cuts out the waiting time with kettle-hot water ready for you, the instant that you want it.

### SAVE WATER, SAVE ENERGY

Think for a moment about how often you boil and reboil the kettle. How often do you actually use all the water? With GROHE Red® you only take the hot water you need, saving precious water and energy\*. In combination with the large GROHE Red® boiler, which can replace a warm water outlet in the kitchen, the system saves even more water. The large GROHE Red® boiler delivers the heated water for both kettle-hot water and also warm water for the sink mixer, instantly. No more wasted water while you wait for it to reach optimum temperature.

- \* In basic mode, GROHE Red® boilers cost just 15 cents\*\* a day to maintain the water at 99°C once heated
- \*\* Based on the average power costs for 2013 in Germany, depending on ambient and water temperature

# GROHE RED®

### KETTLE-HOT WATER ON TAP

How many times a day do you fill and boil the kettle? From the first cup of tea in the morning to a late night pasta dinner, we boil up water countless times, often heating far more than we need. With GROHE Red® you have water heated to 99°C ready when you want it. It's convenient, economical and saves energy and water.

# GROHE RED®

### **CHILDLOCK**

Safety is paramount in a family kitchen. That's why GROHE Red® taps are designed with a child lock that makes scalding practically impossible: for the kettle hot water to flow, you must first pull and then turn the left handle. This child-safe feature has been independently tested and certified.

### TECHNOLOGY YOU CAN TRUST

### **GROHE COOLTOUCH®**

GROHE CoolTouch® technology offers you total peace of mind. It insulates the tap so well that you can touch the spout without any risk of scalding, making it far preferable to a kettle in homes with young children.

### **GROHE RED® TITANIUM BOILER**

All boilers in our GROHE Red® collection are made from titanium. Unlike stainless steel and copper, two metals traditionally used for boilers, titanium is highly resistant to corrosion and limescale build-up – ensuring perfect performance over a lifetime. It also guarantees that your water is free of any metallic taste.

# GROHE RED® DUO

Kettle-hot water – optionally filtered – plus mixed hot and cold water: GROHE Red® Duo means you can have it all covered in just one tap, replacing your standard kitchen tap. When combined with the larger Red® boiler, it is even ideal for kitchens without a hot water supply. It instantly delivers warm water for the kitchen mixer without waiting for water to heat up. Available in two spout shapes, it is also the perfect match with a GROHE Blue® Mono water system.

### GROHE BLUE®

# A SMART SOLUTION FOR YOUR OFFICE KITCHEN

A busy office runs on... tea, coffee and lots of fresh water. From water-cooler moments to brainstorms powered by a pot of hot coffee, drinking water is at the heart of the day-to-day life of any company. Now you can find a smarter solution that saves your company time, energy and money, while offering great taste and unbelievable convenience, with GROHE's water systems.

<sup>\*</sup> Total consumption of 33.000 litres water (in a company with 30 employees; 1 litre/person/day; over a period of 5 years). Source: CO2 Carbon footprint study from Goettingen university, Germany 2013/2014

-83.4%

# ENJOY FRESH THINKING WITH GROHE BLUE®

With a GROHE Blue® water system your company can enjoy the benefits of filtered chilled and sparkling water on tap:

### -62.4%

# GALLON WATER BOTTLED WATER

47.8 gr. CO2/I

108.5 gr. CO2/I

**BEST VALUE FOR MONEY** 

GROHE Blue® filters, chills and even carbonates tap water, so no more expensive and disruptive deliveries of expensive bottled water.

### MOST ENVIRONMENTALLY SUSTAINABLE

With no plastic bottles and lower CO2 emissions\* than for normal bottled water GROHE Blue® will reduce your office's carbon footprint.

The University of Goettingen made a detailed analysis of the influence of drinking water production on our environment. With only 17.96 gr per litre, GROHE Blue® saves up to 62.4% CO2 emissions compared to gallon water and 83.4% compared to bottled water.

### FREE UP PRECIOUS SPACE

With GROHE Blue® there is no more need to set aside vast amounts of valuable office space for storing bottled water.

### **GROHE RED®**

# SAVE TIME AND MONEY IN YOUR OFFICE KITCHEN

With GROHE Red® everyone in the company can enjoy kettle-hot filtered water direct from the tap.

### **NO MORE WAITING**

Don't fear the tea round! With GROHE Red® you can say goodbye to waiting for the kettle to boil. Instead enjoy pure water heated to 99°C, always available at the moment you want it.

### A CLEANER, CLEARER KITCHEN

With no need for a kettle your kitchen will be less cluttered and easier to keep clean and tidy.

### THE MONEY-SAVING OPTION

As you only heat the exact amount of water that you need, running a GROHE Red® tap is cheaper than running a wasteful kettle.

Build a powerful team with GROHE Blue® and GROHE Red® combined

Combine both the GROHE Blue® and GROHE Red® systems for double the benefits. You can opt either for a GROHE Blue® Duo tap in combination with a GROHE Red® Mono, or choose the GROHE Red® Duo and add a GROHE Blue® Mono. The choice is yours, the benefits will be felt throughout the company.

# GROHE EASYTOUCH

# LOVE AT FIRST TOUCH

Kitchens are hands-on places, where multi-tasking is a must. Why not make life easier for yourself with a GROHE Touch tap? It lets you control the flow of water with a simple touch of the wrist or forearm, making your kitchen more hygienic, convenient and instinctive to use. Change the way you control your kitchen with just a single touch.

Ideal for busy kitchens where there's always something going on, EasyTouch is hygienic and convenient, and comes without any compromise on style. With GROHE EasyTouch you can spend less time cleaning and more time cooking, baking, kneading, finger-painting... living.

# GROHE EASYTOUCH

# LIBERATE YOUR HANDS

The kitchen is the heart of your life at home – and let's face it, sometimes life gets messy. With GROHE's innovative Touch taps sticky fingers won't slow you down and cross-contamination is a thing of the past. Hidden GROHE technology lets you start and stop the flow of water with a single touch of your arm, wrist or the back of your hand, anywhere on the spout. No more greasy fingerprints or struggling to turn a lever with your elbow.

# GROHE ZEDRA TOUCH

Put the sweeping, sensual power of water at the centre of your kitchen with the Zedra Touch. Zedra's distinctive fluted swivel spout and beautifully tactile lever combine ergonomic design with visual flair. With the addition of GROHE's EasyTouch technology you can also control the water flow with just one touch.

Choose your Touch function in a cold water-version or upgrade with an under-sink Grohtherm Micro thermostat for perfectly controlled warm water and no danger of scalding.

# GROHE MINTA TOUCH

Modern and minimal, the sensual curves and arcs of GROHE's Minta range will never go out of fashion, and sit perfectly in any contemporary kitchen. Now you can add the ultimate in cleanliness and convenience with the EasyTouch model. Letting you turn the water flow on and off with a touch of your arm, Minta Touch puts you in control. Choose your Touch function in a cold water-version or upgrade with an under-sink Grohtherm Micro thermostat for perfectly controlled warm water and no danger of scalding.

Minta Touch has been approved and recommended for use by disabled people and the elderly. It has been tested and rated "good" by the Institute for Gerontotechnik for Barrier Free Building, due to its one-touch operating technology and ergonomic design.

#### GROHE KITCHEN

# GROHE ZEDRA

Contemporary elegance meets total convenience with Zedra. The flared spout echos the natural flow of water, and also contains a pull-down spray to make cleaning easier. The ergonomically-designed lever handle invites you to control your water flow with precision, while GROHE engineering guarantees smooth functionality that will last a lifetime.

# GROHE ZEDRA

GROHE's Zedra features a dual-control button with locking feature, which lets you switch effortlessly between spray modes and a SpeedClean nozzle makes removing limescale a breeze. Choose between a high-gloss GROHE StarLight® chrome finish or the anti-bacterial properties of RealSteel for a tap that is as durable as it is beautiful.

#### GROHE KITCHEN

# GROHE MINTA

Every family likes variety from the kitchen and that is exactly what Minta delivers. All Minta taps share one unmistakeable feature, which is the minimalist cylindrical shape. GROHE's most popular kitchen collection is now filled with additional innovative features like the new extractable dual-spray. The collection is available in GROHE StarLight® chrome and in highly resistant SuperSteel finish.

# GROHE MINTA

Our most popular tap combines a distinctively minimal silhouette with huge flexibility and innovative features. From a model with a swivel spout to one with a pull-out mousseur or the new retractable dual-spray head, plus two choices of durable finish, GROHE Minta puts the choice in your hands.

### GROHE KITCHEN

### GROHE ESSENCE

Discover a minimal style that's full of warmth with GROHE's new Essence tap. The slim architectural shape is enhanced with organic design elements ideal for a contemporary kitchen, inviting touch and interaction for the sensual chef.

## GROHE ESSENCE

### DELICATE DESIGN, POWERFUL FEATURES

A distinctive, delicate body conceals advanced technology in the new Essence tap. The cylindrical body is super-slim, thanks to a new small cartridge, offering pure elegance without compromise. A solid metal spray head guarantees life-long performance, and you can switch easily between two spray patterns with a toggle function that puts flexibility to the fore.

### GROHE ESSENCE

Choose between two models, one with swivel spout and one with a solid metal pull-out spray, which offers easy switching between mousseur and spray. Add in a choice of two great-looking and durable finishes and you'll see that great design doesn't have to mean compromise on functionality.

### GROHE EUROCUBE

Make a statement with GROHE's Cubist masterpiece. The Eurocube's strong lines and solid, architectural shape is perfect for modern kitchens where design is at the forefront. From the lever's cut-out detailing to the new professional-grade features, this is a tap for those who are both style conscious and serious about their cooking.

## GROHE EUROCUBE

Eurocube is available in two versions. Choose between a swivel spout model and the new semi-professional mixer with pull-out dual spray. Mounted on a spring hose with 360° movement, the head switches easily between two spray options, giving ultimate flexibility and great high-spec performance.

# GROHE EUROSMART

Create a kitchen that the whole family can take pleasure in with the new GROHE Eurosmart. Effortless control, unrivalled performance and temperature-safe operation combine in a sleek contemporary design.

## GROHE EUROSMART

**Lead and nickel free: separated inner water ways** Isolated inner water ways guarantee water has no contact with lead or nickel

# MAKE THE SMART DESIGN CHOICE

Eurosmart has more features than ever before. The easy exchange mousseur lets you install or remove it to clean limescale with just a coin. Separate inner water ways guarantee that the water inside the tap never comes into contact with lead or nickel. You'll also find that our optional variant with GROHE SilkMove® ES cartridge supplies cold water only when the lever is in the central position, which saves energy because water is not heated unnecessarily. Add to that an integrated temperature limiter that can be individually set to your desired maximum temperature and you'll understand why Eurosmart puts unbeatable functionality in your hands.

**EasyExchange mousseur**The mousseur is easy to install and de-install using just a coin
